## Solid Color Multi-Use Tapes

*Versatile and Unique for any medical application*

Our Col R Tone System™ of medical tapes consists of 24 distinctly colored, self-adhesive, plasticized paper tapes. These versatile tapes can be used on all types of surfaces to color code and seal, wrap, unitize or bundle at the same time. Now supplies and materials can be organized the easy way. And tapes can be written on with any ordinary pen! Need a special size, width or format you don't see listed below? Ask us! We're all about custom...

### Why Use Tape?

- **It's Flexible!** It conforms to any surface shape with ease, unlike labels.
- **Removable!** But it adheres securely until you want it gone.
- **No Liner** to worry about upon application.
- **Easy Unwind!** It sticks to itself much less than other similar products.
- **Hand Tearable!** So easy, you can tear it with one hand, yet strong enough to hold items together.

Col-R-Tone System™ tapes have much stronger colors which do not vary and better roll unwind, without edge tears.

Throughout our product line, you'll see items with our Col-R-Tone System™ Logo.

Know that if you order an orange I.V. ID Label (pg. 5), it will match the orange Administration Tape (pg. 4), which will match the orange Alpha-Numeric labels (pg. 9), etc! You'll be organized in no time!

And check out  
[www.colrtone.com](http://www.colrtone.com)!

## Custom-Imprinted Lab & Medical Tapes

Your customers have a special request? Done.

**COL R TONE** Our Col R Tone System™ tapes can be imprinted and used as laboratory labeling, nursing chart tapes and anesthesia tapes. Uses are only limited by your imagination!

Let us help you design a line and a product to specifically suit your needs! Every order is custom, without the typical pricing!

### Need Address Labels or Tape?

Get your organization's custom imprint on your address labels for easy identification of supplies. Our products are far superior... Call for a sample and find out why!

## Custom Lab & Medical Labels

For Charting, Organization, and Research

**COL R TONE** Col-R-Tone System™ labels are imprinted for a multitude of uses in the lab and hospital. Whether your customers need labels for charting, research, IV organization, front desk usage... anything... just ask what is possible, and we'll make it happen!

Due to the flexibility of our offerings, the products shown are just examples of labels we've produced for our customers! Call us and let us help you fill your specific medical label requirements!

## Roll Products Anesthesia Tapes

*Our most popular product - For a reason!*

Our line of medical tapes and labels are designed with professionals in the industry. We are in contact with our consultant, Gregory James, M.D., at The Johns Hopkins Medical Institutes, asking for his insights and opinions as we continue to develop this exciting line!

Drug Tapes are available in either rolls of 1/2" x 500" or 20 pre-cut tape strips on 3" x 5" cards. Please keep in mind, that due to the constant fluctuation of new drugs, dosage, and administration guidelines, we do not offer any anesthesia tapes as "stock" products - instead, let us help you tailor a custom line of tapes for your specific need!

And why anesthesia *tapes* instead of *labels*? It's ideal for this application due to conformability to wrap around & adhere to the small diameter of syringes used often in the OR, ER, or ICU!

RPI has redeveloped our Drug Title Tape system to not only be in accordance with the medical environment today, but to be organized in a way that will allow easier and less confusing ordering for your customers. The new system is updated to comply with the new American Society for Testing and Materials Guideline (ASTM D4774-94). They are offered in our Col R Tone line of Color-Coordinated tapes in order to keep mistakes to a minimum for the medical community.

Below is a list of more than 20 sets of drug tapes that we have offered to customers in the past, with each set containing many drugs and applications. Think of the list below as a launching pad to create your own system... Just give us a call!

<b>Tranquilizers</b> orange	<b>Induction Agents</b> yellow	<b>Anticholinergic Agents</b> green	<b>Obstetrics</b> pink

# Administration Tapes

*Clearly mark sites for error reduction*

With administration tapes, the drug container or syringe can be custom labeled with the administration/site method clearly marked to reduce drug errors.

Below are examples of some popular imprints that customers have found useful...

Administration: I.V.	Administration: Epidural	Chemo Use Only
Administration: I.V. Push	Administration: _____	Concentrated KCL
Administration: I.V. Followed by _____	Rate of: _____ Not for I.V. Use	Concentrated KCL – Must be diluted before use!
Administration: I.M. _____	O.R. Use Only	
Administration: Sub-Q	Flush	
Administration: Spinal	Flush with NaCl	

## I.V. Site Labels

*All the convenience of a label with the quality of a tape!*

Now, with I.V. Site™ labels, making notations is simple and fast. A caregiver quickly grabs the large 3" x 3" card, fills in the information on the label with any pen, removes it from the card and places it directly to the patient. Every I.V. Site™ allows all pertinent information to stay with the patient!

Emergency services will add this to their "must have list" once tried. Medical facilities will stock these in bulk once they have experienced their effectiveness. And variations can be custom-made for your catalog!

## I.V. ID Labels

*For IV Lines, or any place needing organization!*

These sets of two labels are an exciting new aid for anesthesiologists, nurses, and other medical staff in identifying which I.V. line goes to which bag. Imagine the tangle of plastic lines with the average intensive care or complex post-surgical patient.

Now imagine needing to inject a medication into the correct tubing port. Our I.V. ID™ labels come complete with companion tubing labels to make identifying the correct line a snap!

We've developed a system with labels in the colors listed below. If you or your customers would like to create your own customized line, simply pick any of the 24 Col-R-Tone System™ colors listed on page 1, and replace the letter at the end of the product code below. Or we'll work with you to create your own custom colors! Just call or hop on our website and ask!

## Action Labels & Dots

Peel layers to show a condition change... instantly!

Action™ labels reflect the change of status unlike any other method. Place the Action™ label on your equipment, such as an oxygen tank. While in place, the label reads "Full". Once the tank is empty, simply remove the top label and it now reads "Empty", prompting an action to refill the container and avoid inventory problems.

Action Labels & Dots	
Dots (add 2 color codes - see pg. 1)	115-0001-(AX)

<b>785.437.6000</b>	

Use Action™ labels & dots for inventory, sterility, and quality control. For added security, the top label cannot be reapplied once removed. The bottom layer also has a removable adhesive so the whole system can be removed and a new set applied.

Each Action™ label is 1" x 1½", in fl. pink and fl. yellow stock colors, with custom colors available. Each Action™ dot is 1" in diameter, and is available in any combination of our 24 Col-R-Tone System™ colors!

### Security & Universal Comprehension

## Action Dry Erase Labels

Show the changing states of equipment easily!

These Action™ Dry-Erasable labels make inventory a snap and can be changed as often as inventory changes. Simply lift the protective flap, wipe clean, and change the information on the labels with a dry-erase marker. The information will not smear thanks to our protective flap. Each label is made with removable adhesive and can be applied to almost any surface and then removed when no longer needed. Available as stock product in three different sizes to fit your needs!

## Evidence Tape

*Easy to Handle, Hard to Miss!*

Preferred by law enforcement personnel because it is easier to handle! Law Enforcement agencies begged us to improve the typical blue serrated edge evidence tape, with a brighter color, and more tamper-resistance. And we feel as if we more than succeeded with this latest version! Ask us for samples!

Item # 156-001

Item # 112-0001

## Entry Alert Labels

*Know what needs to be restocked at a glance!*

During hectic situations, medications and supplies are used at an alarming rate, often causing inventory control problems. Mount these labels on an opening of any drawer or cabinet door, and you'll know immediately which areas need to be restocked for the next time! And don't worry... these labels are fully removable and replaceable!

## Emergency ID Labels

*For immediate recognition of plain-clothed personnel!*

These badges are ideal when personnel arrive at the scene out of uniform - They can simply place the badge on their clothing! Additional uses are endless... From marking lockers, to equipment, one customer even said they mark leftovers in their communal refrigerator!

## Biohazard Tapes & Labels

*High visibility for ultimate safety!*

Use to mark trash cans, sinks, sharps containers, and other biohazard locations quickly and easily. These brilliant black on fluorescent red tapes and labels are coated with a permanent adhesive. The tapes are strong enough to close, seal, bundle, or strap and are bright enough to grab attention at the same time. Use to seal or mark boxes, packages, or containers that contain hazardous materials. Labels are available in rolls and sheets in assorted quantities. Each roll of Biohazard Tape is 2" wide by 55 yards long on a 3" diameter core. The tape is printed in black ink on tough, fluorescent red PVC tape.

Biohazard Labels & Tapes	
Biohazard Labels 4" x 5"	142-0001
Biohazard Labels 3-5/8" x 3"	142-0002
Biohazard Labels 6.5" x 6.5"	142-0003
Biohazard Tape 2" x 55 yds	142-0004
Contaminated Dipsoables	142-0005
Biohazard Bililingual Tape	142-0006

## Secure Lock Labels

*Security at your fingertips!*

Finally, an inexpensive label to increase security! These labels are tamper evident, which means if tampering has occurred, they break apart like magic! They cannot be removed in one piece. Use on product boxes, bottles, shipping containers, envelopes, and anything else you need to be assured of security. Also excellent for evidence and police work. The words "TAMPER RESISTANT" are printed in eye-catching red ink on a clear label for instant recognition.

Secure Lock Labels	
5/8" x 1-1/4"	113-0001
5/8" x 2-1/2"	113-0002
1-1/2" x 6-3/4"	113-0003

## Arrow Flags

*To call attention to a specific location!*

Arrow flags are made of tough plastic which stays put until needed, then removes

easily from almost any surface! The adhesive covers only half of the arrow, allowing easy removal. Available plain or with stock imprints. Arrow flags are 2¼" x ½". Available in all 24 Col-R-Tone™ colors. Arrow flags are packaged in their own dispenser box. And please don't hesitate to ask about custom imprints on the flags! The examples shown here are just some of our more popular options!  
Comes standard at 200/roll.

## Label Protectors & See Thru Labels

*For protection of any label on any surface!*

We offer label protectors in many combinations of sizes, shapes, and materials. Choose among three basic styles for different needs...

### Polyethylene Label Protectors:

These flexible, 3.5-mil clear labels stay in place even on irregular surfaces. And even though we've applied a thick-coat of acrylic adhesive, they won't "ooze" on vinyl surfaces, shrink, crack, yellow, or dry out for years. Initially repositionable, these labels set permanently in 24 hours. They also have a neutral PH and your customers won't have to worry about dirty adhesive edges.

Save your labels from caustic or damaging spills!

### Vinyl Label Protectors:

These labels are made of a tough, 4.5-mil premium vinyl with a matte, non-glare surface with the best abrasion resistance on the market. This ultra-aggressive adhesive is initially repositionable but sets permanently in 24 hours.

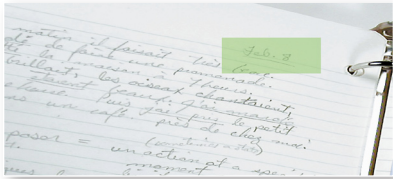

example of 1" x 1.5" & 1.5" x 3.25" in clear

### Colored See-Thru Polyester

Whether your customers use

See-Thru™ labels to protect or color code, these labels add attention to any existing information. See-Thru labels are printed with the basic Col-R-Tone™ colors (fluorescents and black not available). Clear is also available. Each label is produced using a 2-mil polyester film with a unique "locked in" color feature that actually bonds the color to the material. This color will not scratch off from the surface of the label! The permanent adhesive assures that your information will remain highlighted and noticed!

example of 1" x 1.5" & 1.5" x 3.25" in Col-R-Tone™ colors
